PROFESSIONAL SUMMARY

Highly motivated **Full Stack Developer** with strong programming fundamentals in **C, C++, Java, and Python**, along with hands-on experience in **HTML, CSS, JavaScript, PHP, React, Angular, and MySQL**. Skilled in building complete web applications from frontend UI to backend logic and database management. Passionate about problem-solving and developing scalable, real-world software solutions.

TECHNICAL SKILLS

Programming Languages

- C
- C++
- Java
- Python

Frontend Technologies

- HTML5
- CSS3
- JavaScript
- React.js
- Angular
- Bootstrap, Tailwind CSS
- Responsive Web Design

Backend Technologies

- PHP
- REST API Development (Basic)
- Authentication & Authorization
- Session & Cookie Management

Database

- MySQL

Tools & Concepts

- Git & GitHub
 - XAMPP, phpMyAdmin
 - AJAX, JSON
 - MVC Architecture (Basic)
 - OOP Concepts
 - Data Structures & Algorithms (Basic)
-

EDUCATION

Bachelor of Science (BSc) – Computer Science

Second Year (Pursuing)

College / University Name

2023 – Present

PROJECTS

SkillSyncPro – Job Matching Full Stack Web Application

Tech: HTML, CSS, JavaScript, PHP, MySQL

- Developed end-to-end web application
 - Implemented login/signup system for users & companies
 - Resume upload and skill-matching functionality
 - Admin dashboard for job posting and management
 - Secure database schema and optimized queries
-

Virtual Marketplace – E-Commerce Web Application

Tech: PHP, MySQL, Bootstrap

- Product listing, cart, and order placement system
 - Admin panel for product and order management
 - Session-based authentication and checkout
-

CHIEF – Emergency Auto Alert System

Tech: PHP, MySQL, API Integration

- Backend logic for emergency alert handling
 - OTP verification system
 - Multi-admin and role-based access
-

Portfolio Website

Tech: HTML, CSS, JavaScript

- Fully responsive personal portfolio
 - Smooth scrolling, animations, and dark mode
-

INTERNSHIP / PRACTICAL EXPERIENCE

Full Stack Development – Self Projects

- Built multiple full stack applications
 - Integrated frontend frameworks with backend APIs
 - Worked on database design and optimization
-

SOFT SKILLS

- Problem Solving
- Logical & Analytical Thinking
- Team Collaboration
- Communication Skills
- Quick Learner

CAREER OBJECTIVE

To secure a position as a **Full Stack Developer** where I can utilize my programming knowledge and web development skills to build efficient applications and continuously enhance my technical expertise.

DECLARATION

I hereby declare that the above information is true to the best of my knowledge.
